

Obada Jasem

Mobile Application Developer

Profile

Software Engineer with over 2 years of experience in frontend development for mobile and web, I have a good background in Dart, Flutter, Android native development, and web development.

Employment History

Frontend Web Developer at Nestech, Syria (Remote)

September 2021 — Present

- Converted design into high-class frontend web applications with the help of quasar framework.
- Engaged in daily scrum meetings with our 5 members' team to optimize the development process.
- Helped to overcome deadlines with 3+ responsive high quality web applications.

Mobile Application Developer at BadinanSoft, Iraq (Remote)

December 2020 — September 2021

- Implemented high-quality mobile applications with flutter and native android java for company-existed order system.
- Created a TV-oriented design video stream android native app using leanback library.
- Handled various technologies such as creating a small node server using Express JS to track the driver location using Socket IO and integrating it with the mobile flutter app.
- Created company-base-package to reuse shared logic and style across different apps to gain more control and flexibility and reduce multi-file changes if needed.

Mobile Application Developer at Qlevar, Germany (Remote)

July 2020 — August 2021

- Implemented and updated application modules under the direction of Senior Software Developer.
- Efficiently translated client requirements into application designs and system requirements.
- Managed tasks distribution within the team using Jira software.

Side Projects

TasQment

Mobile app for **tasQment** an agile-based project management system

Recommendation letter for Obada Jasem

Dear colleague -

I hope this finds you well.

I'm writing to you to **strongly endorse Obada Jasem** for a technical role in your company.

We are a social venture that supports young aspiring talents from non-European countries in finding a challenging tech job in Germany. We run a **highly selective 4 week digital boot camp** for full stack developers, data scientists/engineers and software automation testers. Over the course of the program, we identify candidates whose **talent, passion and work ethic** significantly stand out from their peers.

Obada Jasem is an outstanding Frontend engineer who ranks in the top 10% of our peer group.

English communication	Strong – validated in multiple rounds of 1:1 interviews
Technical skills	High & up to date – on par with candidates in Germany
Unique qualities	Tutor and thought leader in own community
EU 'Blue Card' eligibility	Yes - University/degree fully recognized - very smooth visa process
Maturity	Junior – 2 years of work experience

Please feel free to reach out to me personally at johann@joinimagine.org in case of any questions.

Warm regards & herzliche Grüße -

Dr. Johann Daniel Harnoss
Founder & CEO

Imagine Foundation e.V. | Humboldtstraße 25 | 14193 Berlin, Germany

We imagine a new world. A world where people freely unfold their talents. A world in which talented people from outside Europe move effortlessly towards opportunity. A world in which our firms tap into new sources of talent. A world in which Europe becomes a beacon of light and opportunity for young global talent.
